| Uses speech which is clear enough for strangers to understand | Y <input type="checkbox"/> N <input type="checkbox"/> |

If your child is not demonstrating the above developmental skills, consultation is recommended with a private, licensed, speech language pathologist. A simple phone call may determine if a screening test is needed or if your child needs in-depth diagnostic testing. It is better to call now than to "wait and worry." Most often, guidance or short term intervention is all that is needed to prevent future problems from developing. Contact us to schedule a no cost phone conference.
